Kia ora koutou katoa

Our weeks in Term 2 seem to be accelerating! Week 4 is no exception, with the rest of the term completely mapped out.

On Monday, class photos were taken. BMIS must be one of the slickest schools that PhotoLife visits – every class photo was completed within an hour! It was the staff photo that proved to be the trickiest to coordinate.

This week, our BMIS school councillors facilitated our assembly where we celebrated Mathematics achievements, and it was incredible to see how many learners crossed the stage. We also celebrated Principal Awards, McLaren Awards, and 100% attendance for Term 1. Congratulations to all recipients.

Whānau Atawhai held a successful bake sale on Wednesday, with lots of “yummies” available. This fundraising supports Whānau Atawhai’s science trip to the Science Roadshow in Week 6.

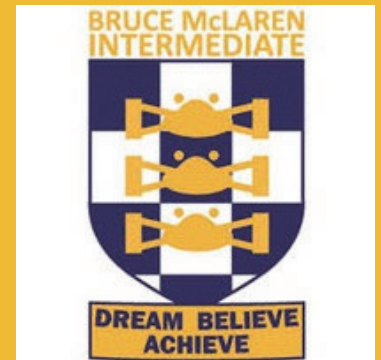

Also on Wednesday, five teachers continued professional development in Structured Literacy. As you may have heard through the media, this is one of the new approaches to be implemented in 2027. BMIS is upskilling ahead of time!

Trainings continue before, during, and after school for a variety of sports including netball, rugby, Ki o Rahi, basketball, soccer and fitness. It is brilliant to see so many students involved in physical activity and sport.

Our BMIS Champions of Orienteering are currently competing at the Orienteering Regional Championships as this newsletter goes to print. We wish the team all the best – they have done amazingly well so far. Go Team McLaren!

On Friday, Ola Finafinau (R12) will be fundraising for their experience in Wellington. No doubt more “yummies” will be available for students to purchase.

Friday is **PINK DAY**, and BMIS is proud to support this important cause. **BMIS has ZERO TOLERANCE for bullying**, verbal or physical aggression, or inappropriate behaviour. Ākonga are encouraged to wear pink. The cost is \$2. Clothing **MUST** be appropriate for learning, and all school rules apply on the day. Let’s work together to make our communities a better place!

HE MIHI NĀ TE TUMUAKI - PRINCIPAL'S MESSAGE CONT'D

Next week, during Week 5 of Term 2, **Blake VR** will be onsite. In partnership with New Zealand Geographic and powered by Westpac, Blake VR is a school programme that aims to connect learners with the marine environment. Through virtual reality technology, Blake VR allows students to experience the rich biodiversity that exists beneath the surface of the ocean, while also exploring the damage that has been done to these ecosystems. Please talk with your child/ren about this incredible experience – fully funded by BMIS.

Whānau Manaaki are heading to the Auckland Zoo on Friday, 22 May, while Whānau Manawanui are off to the Auckland Museum. These are fantastic venues for offsite experiences that strengthen onsite learning. Thank you to our amazing parents and caregivers who are supporting both trips. We truly value your contribution and time.

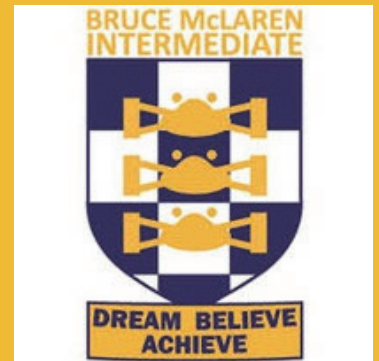

It is that time of year when Year 8 students are attending interviews at secondary schools. Please ensure your Year 8 child is enrolled for 2027.

On Tuesday, 16 June, from 6:00–7:00pm, BMIS will host our Year 6 Information Evening. We invite all parents and caregivers to come along and hear why BMIS is the small school with a big heart – where we know class size matters (averaging 24 learners per class) and where our students are here to LEARN!

Formal written reports will be sent to parents and caregivers in Week 10, Term 2. Families are invited to attend 15-minute Three-Way Learning Conversations during Week 11. Watch this space for more information.

Should you have any questions regarding your child/ren's learning, please contact your child/ren's class teacher. Email is the best approach, or alternatively, leave a message through the school office. Teachers will respond within 24–48 hours during the working week. I do want staff to have time with their families, so please do not expect replies on a day that begins with "S". We value your input and partnership.

Congratulations to our three amazing learners for suggesting a great cause to support. The Salvation Army were rapt with the BMIS "Bring a Can to wear Mufti" on Tuesday 31st March. Over 250 cans were collected for the Salvation Army and these will support the community work The Salvation Army does. Fabulous support shown by our BMIS students, staff, parents and caregivers - thank you.

DREAM BELIEVE ACHIEVE

Moemoeā Whakapono Tutuki

Here is a whakataua that resonates:

Mā te mahi tahi ka ea ngā mahi

- Translation: Through working together, the tasks are accomplished.
- Meaning: Directly emphasizes that collaboration is the key to completion.

Have a safe and enjoyable fortnight.

Ngā mihi

Liz Wood
Tumuaki – Principal

BMIS has ZERO TOLERANCE for inappropriate behaviour. Everyone is on site to LEARN. With only two years at intermediate school, BMIS does NOT have time for 'busy work' or lack of engagement. We expect our ākonga to be safe, fed, prepared, focused, engaged, and willing to accelerate their learning journey. Support from home is imperative.

Yellow Lines: If you need to drop off or pick up your child/ren, it is encouraged that you choose a safe place. YELLOW LINES are NOT for PARKING ON. Keep all our akonga safe – park safely!

Electric Scooters: MUST be ridden with utmost care. No helmet – No ride. Students need to lock all 'wheels' at the Bike Bay.

Devices, such as chromebooks are provided by our school. There is no reason for a student to bring in a device – please check that your child is not bringing a device to school. BMIS is a 50-50 workbook – device school. Any mobile phone or transmitting watch is to be handed in at 8:30am to the class device box for safe storage and returned at 3pm.

E-day for Bruce McLaren Intermediate

What is E-day?

E-Day is a youth-led community e-waste collection and education event delivered through Zeal's Reboot programme in partnership with schools and industry partners such as Echo Tech. The kaupapa empowers rangatahi to take action on digital equity and environmental sustainability by leading school and community e-waste drives, educating their peers and whānau about responsible recycling, and helping divert harmful electronic waste from landfill.

As part of the programme, young people learn about:

- the lifecycle of technology and e-waste
- identifying recyclable electronic materials
- environmental impacts of improper disposal
- refurbishment and reuse of devices
- community leadership, promotion, and event delivery

During E-Day events, schools and communities are invited to drop off unwanted electronics such as laptops, computers, cables, keyboards, phones, and other tech devices for safe recycling or refurbishment. Rangatahi take active leadership roles in planning, promotion, social media, welcoming participants, sorting e-waste, and running engagement activities.

E-Day combines environmental action with youth development by creating practical, hands-on opportunities for leadership, creativity, teamwork, and community impact. The programme also supports Zeal's wider mission of improving digital equity, with suitable donated devices refurbished and used to help equip young people with technology access.

Across participating West Auckland schools, the initiative aims to engage hundreds of young people and divert significant volumes of e-waste from landfill while building a generation of environmentally conscious and community-minded leaders.

Where will it be?

Agnes has very kindly agreed to allow us to use the MPHS carpark (pictured below), next to the school.

When will it be?

The E-day itself will be **Saturday 30th May at 10.30-2pm**. The bins will be dropped off earlier in the week so that whānau can drop off e-waste throughout the week.

What happens on the day?

- Zeal and Echo Tech staff will be there, Zeal crew will be activating with some activities and kai, and helping people put their stuff in the bins.
- Echo Tech team will collect the bins at the end of the event
