

Bruce McLaren Intermediate School

Community Update: 19 August 2020

Kia ora koutou katoa

Home is certainly the place to be with this weather. I hope that you are keeping well and warm in this Alert Level 3. I am acutely aware that this unusual time impacts us all.

Thank you to our families who have their children engaged with their learning - online. It is important for our akonga to continue to engage with the learning programmes to ensure their progress and achievement continues to accelerate.

We have distributed 90+ school devices to our students and know that this will be supportive. Remember, as parents and caregivers to monitor the usage of the learning device and no-one should be on a school device after 4.00pm. Everyone's cyber safety is paramount.

Today, Wednesday, at 1pm, is the last day for the school to distribute a learning device to students. Please follow the information sent out on Saturday via email, SkoolLoop & website.

At this stage, Camp & EOTC is still going ahead. A decision will be made regarding these events after this Alert Level 3 time frame on Wednesday, midnight.

Thank you for your continued support in this unprecedented time.

Kia kaha BMIS community - we're up and re-tuning constantly!

Nga mihi

Liz Wood
