

# **Bruce McLaren Intermediate School**

## **Principal's Update: 14 March 2022**

### **For Bruce McLaren Intermediate School Parents and Caregivers**

Kia ora BMIS community whanau.

Week 7 has commenced positively with many students returning to school.

As per the Government's Covid-19 Omicron response, the isolation period for positive and household contacts has changed from ten to seven days. Students who have now completed seven days, and are symptom free, should now return to school.

We would like to reiterate that our data shows that there has been little transmission within the school, so we would like to encourage students to come back to school for face to face learning.

BMIS mitigations continue on site: sanitizing, encouraging social distancing, ventilation, cleaning, wiping and mask wearing when indoors.

We are fortunate to start our week with fabulous weather again, and hope that this continues to allow our students to enjoy our large outdoor spaces.

Thank you for your continued support.

Ngā mihi

Liz Wood
